Independent Auditor's Report

To the Honorable Members of the Township Board of Tyrone Township Livingston County, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Tyrone Township (the Township) as of and for the year ended March 31, 2011, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township, as of March 31, 2011 and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the for the General Fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and the budgetary comparison schedule, as identified in the table of contents, are not a required part of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

To the Honorable Members of the Township Board of Tyrone Township

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

Our discussion and analysis of the Tyrone Township, Michigan's financial performance provides an overview of the Township's financial activities for the fiscal year ended March 31, 2011. Please read it in conjunction with the Township's financial statements.

Financial Highlights

As discussed in further detail in this discussion and analysis, the following represents the most significant financial highlights for the year ended March 31, 2011:

- The Township's total net assets are \$13.4 million
- During the year, the Township's total net assets increased \$142,000. Governmental
 activities realized a \$348,000 increase in net assets. Business activities realized a decrease of
 \$205,000 in net assets
- General Fund revenues exceeded expenditures by \$209,000 leaving a fund balance of \$1,054,000

Using this Annual Report

This annual report consists of a series of financial statements. The statement of net assets and the statement of activities provide information about the activities of the Township as a whole and present a longer-term view of the Township's finances. This longer-term view uses the accrual basis of accounting so that it can measure the cost of providing services during the current year, and whether the taxpayers have funded the full cost of providing government services.

The fund financial statements present a short-term view; they tell us how the taxpayers' resources were spent during the year, as well as how much is available for future spending. Fund financial statements also report the Township's operations in more detail than the government-wide financial statements by providing information about the Township's most significant funds. The fiduciary fund statements provide financial information about activities for which the Township acts solely as a trustee or agent for the benefit of those outside of the government.

Management's Discussion and Analysis (Continued)

Governmental Activities

The following table shows, in a condensed format, the current year's net assets and changes in net assets, compared to the prior two years:

Total expenses	1,280,070	1,254,411	1,655,232	400,821	32%	
Change in Net Assets	\$ 162,609	\$ 96,855	\$ 347,664	\$ 250,809	259%	

The governmental net assets increased 21 percent from a year ago - increasing from \$1,690,449 to \$2,038,113. In contrast, last year's net assets increased by 6 percent.

Unrestricted net assets - the part of net assets that can be used to finance day-to-day operations - decreased by \$164,095 for the governmental activities. This represents a decrease of approximately 13 percent. The current level of unrestricted net assets for our governmental activities stands at \$1,125,094, or about 69 percent of expenditures.

The Township's total governmental revenues increased by approximately \$651,630. The increase, which represents 48 percent, was primarily due to an increase in charges for service.

Expenses increased by about \$401,000 during the year.

Management's Discussion and Analysis (Continued)

Management's Discussion and Analysis (Continued)

The Township's business-type activities consist of the Sewer Fund.

The net assets of business type activities decreased 2 percent from a year ago - decreasing from \$11,534,255 to \$11,328,767. In contrast, last year's net assets decreased by 12 percent.

Unrestricted net assets - the part of net assets that can be used to finance day-to-day operations - increased by \$233,427.

The Township's Funds

Our analysis of the Township's major funds begins on page 11, following the government-wide financial statements. The fund financial statements provide detail information about the most significant funds, not the Township as a whole. The Township Board creates funds to help manage money for specific purposes as well as to show accountability for certain activities, such as special property tax millages. The Township's major funds for 2011 include the General Fund and the Police Fund.

General Fund Budgetary Highlights

Over the course of the year, the Township amended the budget to take into account events during the year. Over the past year, with a few exceptions, Township departments overall stayed below budget, resulting in total expenditures \$70,000 below budget and actual revenues being \$134,000 greater than budget. This allowed the General Fund's fund balance to increase from \$845,000 a year ago to \$1,054,000 at March 31, 2011.

Capital Asset and Debt Administration

At the end of 2011, the Township had \$16 million invested in a broad range of capital assets, including buildings, equipment, and sewer lines. The Township has \$628,000 in governmental activities debt and \$12,262,863 in business type activities debt (substantially for sewer improvement bonds).

Contacting the Township's Management

This financial report is intended to provide our citizens, taxpayers, customers, and investors with a general overview of the Township's finances and to show the Township's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the Clerk's office.

Note I - Nature of Business and Significant Accounting Policies

The accounting policies of Tyrone Township (the "Township") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by Tyrone Township:

Reporting Entity

Tyrone Township is governed by an elected seven-member council (board). The accompanying financial statements present the Township and its component units, entities for which the Township is considered to be financially accountable. Although blended component units are legal separate entities, in substance, they are part of the Township's operations. The Township has no component units.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (I) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Note I - Nature of Business and Significant Accounting Policies (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The following major revenue sources meet the availability criterion: state-shared revenue, district court fines, and interest associated with the current fiscal period. Conversely, special assessments will be collected after the period of availability; receivables have been recorded for these, along with a "deferred revenue" liability.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

The Township reports the following major governmental fund:

The General Fund is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Public Safety Fund is used to account for the Township's police and fire activities paid with extra voted special assessments.

The Township reports the following major proprietary fund:

The Sewer Disposal System Fund accounts for the operations of the sewage pumping and collection systems.

Additionally, the Township reports the following fiduciary activities:

The Agency Funds account for assets held by the Township as an agent for individuals, private organizations and other governments.

Private sector standards of accounting issued prior to December 1, 1989 are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The Township has elected not to follow private sector standards issued after November 30, 1989 for its business-type activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Township's sewer function and various other functions of the Township. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Note I - Nature of Business and Significant Accounting Policies (Continued)

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and interest income.

When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the Township's policy is to first apply restricted resources.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of our proprietary funds relates to charges to customers for sales and services. The Sewer Fund recognizes tap fees as capital contributions. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Property Tax Revenue

The Township levies property taxes on December I of each year. These taxes become liens on the property at that date. Township taxes are collected without penalty from December I to February 28 each year.

The Township's 2010 tax is levied and collectible on December I, 2010 and is recognized as revenue in the year ended March 31, 2011, when the proceeds of the levy are budgeted and available for the financing of operations.

The 2010 taxable valuation of the Township totaled \$427 million, on which taxes levied consisted of .9067 mills for operating purposes. This resulted in approximately \$378,000 for operating purposes recognized in the General Fund.

Assets, Liabilities, and Net Assets or Equity

Bank Deposits and Investments - Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. Certificates of deposit with a maturity date of greater than three months at time of purchase are recorded as investments on the financial statements.

Note I - Nature of Business and Significant Accounting Policies (Continued)

Restricted Cash and Cash Equivalents - The Township's Sewer Enterprise Fund has cash in the amount of \$1,456,208 that is restricted for debt service. The balance represents special assessments that have been collected and will be used to pay off the sewer bonds. The Sewer Fund has unspent bond proceeds, investment earnings and prepayments of \$522,861 on deposit with the Livingston County Water and Waste Services Division for the construction of sewer line improvements. The Division will hold these funds on behalf of the Township and expend the proceeds for allowable construction costs.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds", activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown as net of allowance for uncollectible amounts.

Prepaid Items - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets - Capital assets, which include property, plant, equipment, intangible assets, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the Township as assets with an initial individual cost of more than \$2,500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Interest incurred during the construction of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the current year, \$0 of interest expense was capitalized as part of the cost of assets under construction.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Notes to Financial Statements March 31, 2011

Note I - Nature of Business and Significant Accounting Policies (Continued)

Infrastructure, intangibles, buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Building	39 years
Building improvements	15 years
Vehicles	5 years
Office equipment	5 years
Furniture and fixtures	7 years
Sewer distribution system	39 years
Software	5 years

Long-term Obligations - In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds are reported net of the applicable bond premium or discount. In the fund financial statements, governmental fund types recognize bond premium and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Note 2 - Stewardship, Compliance, and Accountability

Building Department Revenues and Expenses - The State Construction Code Act Michigan Public Act 245 of 1999, and rules promulgated by the Department of Treasury regarding that Act, requires that a local unit's fees collected from construction code permits be accounted for in a method which shows that all of these fees were used for expenditures related to the operations of the enforcing agency. The rules indicated that if the revenues exceeded the expenditures, the fees collected must be kept in a separate fund. The rules allowed for monitoring these funds in a separate activity center within the General Fund if the expenditures would normally exceed the revenues. The Township chose the latter. The activity related to construction code activities for the year ended March 31, 2011 is as follows:

Surplus (shortfall) at April 1, 2010	\$	(278,680)
Construction permit revenue		11,675
Related expenses:		
Building department expenditures		30,023
Current year shortfall		(18,348)
Cumulative surplus (shortfall) at March 31, 2011	<u>\$</u>	(297,028)

Fund Deficits - The Beautification Fund Fund had a deficits of \$1,106. The outstanding assessment that will be collected in the future and recognized as revenue on the modified accrual basis of accounting will be adequate to eliminate the deficits.

Note 3 - Deposits and Investments

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The Township has designated several banks for the deposit of its funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997. The Township's deposits and investment policies are in accordance with statutory authority.

Notes to Financial Statements March 31, 2011

Note 3 - Deposits and Investments (Continued)

The Township's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. At year end, the Township had \$1,435,589 of bank deposits (certificates of deposit and savings accounts) that were uninsured and uncollateralized. The Township believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Township evaluates each financial institution it deposits funds with and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that in the possession of an outside party. The Township does not have a policy for custodial credit risk. At year end, \$315,623 of investment securities were uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the Township's name.

Credit Risk - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Township has no investment policy that would further limit its investment choices. As of year end, the credit quality ratings of debt securities (other than the U. S. government) are as follows:

				Rating
Investment	F	air Value	Rating	Organization
MBIA CLASS - Mutual fund	\$	315,623	AAA	Fitch

Notes to Financial Statements March 31, 2011

Note 4 - Receivables and Deferred Revenue

Receivables as of year end for the Township's general and the nonmajor funds, including the applicable allowances for uncollectible accounts, are as follows:

		General		Public	Ν	Ion-Major	
		Fund	Sa	fety Fund		Funds	Total
Receivables:							
Accounts	\$	190,967	\$	-	\$	-	\$ 190,967
Property taxes		13,593		-		-	13,593
Special assessments		-		-		483,314	483,314
Other receivables		21,484		-		75,366	96,850
Due from other governmental							
units		120,536		47,143		48,75 I	216,430
Less allowance for uncollectibles	_	(170,216)			_		 (170,216)
Net receivables	<u>\$</u>	176,364	\$	47,143	\$	607,431	\$ 830,938

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	Governmental Funds					
	U	Unavailable				
Delinquent property taxes	\$	13,593	\$	-		
Special assessments		483,314		-		
Public safety special assessment		-		582,425		
Total	\$	496,907	\$	582,425		

Notes to Financial Statements March 31, 2011

Note 5 - Capital Assets

Capital asset activity of the Township's governmental and business-type activities was as follows:

Governmental Activities	A	Balance April 1, 2010		Additions	D	isposals	Ma	Balance arch 31, 2011
Capital assets not being depreciated: Land	\$	7,500	\$	-	\$	-	\$	7,500

Net capital assets	\$	15,917,080	\$	(501,384)	\$	-	\$	15,415,696

Notes to Financial Statements March 31, 2011

Note 5 - Capital Assets (Continued)

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities		
General government	<u>\$</u>	26,817
Business-type Activities Sewer	\$	501,384

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of March 31, 2011 is as follows:

Receivable Fund	Payable Fund		mount
Due to/from Other Funds			
General Fund	Building and Site Hill I & 2 Road Improvement	\$	7,757
	Fund		101
	Jayne Hill Waste Removal Fund		54
	Liquor Enforcement Fund		1,896
	Beautification Fund		230
	Sewer Fund		12,066
	Total General Fund		22,104
Township Improvement			
Revolving Fund	Other governmental funds		4,000
	General Fund		30,835
	Total Township Improvement		
	Revolving Fund		34,835
	Total	<u>\$</u>	56,939

These balances result from the time lag between the dates that goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

Note 6 - Interfund Receivables, Payables, and Transfers (Continued)

Interfund transfers reported in the fund financial statements are comprised of the following:

Fund Providing Resources	Fund Receiving Resources	 Amount
General Fund	Technology Fund	\$ 15,850

The transfer from the General Fund represents the movement of resources to be used for future improvements, operation of the and technology needs.

Note 7 - Long-term Debt

The Township issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the Township. County contractual agreements and installment purchase agreements are also general obligations of the government. Special assessment bonds provide for capital improvements that benefit specific properties, and will be repaid from amounts levied against those properties benefited from the construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the Township is obligated to provide resources to cover the deficiency until other resources (such as tax sale proceeds or a re-assessment of the Township) are received. Revenue bonds involve a pledge of specific income derived from the acquired or constructed assets to pay debt service.

Long-term debt activity can be summarized as follows:

	Balance at								Balance at			
	Interest	Final	March 31,						March 31,		Due Within	
	Rate	Payment Due	_	2010		Additions Reductions		2011		One Year

Note 7 - Long-term Debt (Continued)

Tyrone Township Jayne Hill Farms Subdivision I & 2 Road Improvement Special Assessment Bonds - Tyrone Township issued \$178,000 in Special Assessment Bonds. The Jayne Hill Farms Subdivision I & 2 Road Improvement Special Assessment Bonds were issued pursuant to Act 188, Michigan Public Acts of 1954, as amended. They are primarily payable from collections of special assessments levied against the benefited properties in the District. The bonds are dated August 30, 2005 with interest payable April I, beginning on April I, 2006. The Township's limited tax full faith and credit are pledged for the payment of the bonds if the special assessments are not adequate.

Parkin Lane Road Improvement Special Assessment Bonds - Tyrone Township issued \$500,000 in Special Assessment Bonds. The Parkin Lane Road Improvement Special Assessment Bonds were issued pursuant to Act 188, Michigan Public Acts of 1954, as amended. They are primarily payable from collections of special assessments levied against the benefited properties in the District. The bonds are dated September 9, 2010 with interest payable December 1, beginning in December 2010. The Township's limited tax full faith and credit are pledged for the payment of the bonds if the special assessments are not adequate.

Tyrone Township Fire Authority Contract - The Township entered into a settlement agreement contract because they opted out of the joint venture Hartland Deerfield Tyrone Fire Authority. The settlement requires five annual payments of \$39,000 each, commencing on January 15, 2008.

Tyrone Township Sewer Bonds - Series 2003 - Tyrone Township, through Livingston County, issued \$7,725,000 in Sanitary Sewer Improvement Bonds. The Livingston County Sanitary Sewer Improvement Bonds Series 2003 (Tyrone Township Sewer Bonds) were issued pursuant to Act 185 and 342, Michigan Public Acts of 1954, as amended. They are primarily payable from collections of special assessments levied against the benefited properties in the District and revenue expected to be generated by future sewer connections fees. The bonds are dated August 27, 2003 with interest payable November 1 and May 1, beginning on November 1, 2003. The Township's limited tax full faith and credit are pledged for the payment of the bonds if the special assessments are not adequate.

Notes to Financial Statements March 31, 2011

Note 7 - Long-term Debt (Continued)

Tyrone Township Sewer Bonds - Series 2005 - Tyrone Township, through Livingston County, issued \$8,640,000 in Sanitary Sewer Improvement Bonds. The Livingston County Sanitary Sewer Improvement Bonds Series 2005 (Tyrone Township Sewer Bonds) were issued pursuant to Act 185 and 342, Michigan Public Acts of 1954, as amended. They are primarily payable from revenue expected to be generated by future sewer connections fees. The bonds are dated June 22, 2005 with interest payable November I and May I, beginning on May I, 2007. The Township's limited tax full faith and credit are pledged for the payment of the bonds if the collection of revenues from the system are not adequate.

Tyrone Township Sewer Bonds - Series 2007 - Tyrone Township, through Livingston County, issued \$4,155,000 in Sanitary Sewer Improvement Refunding Bonds. The Livingston County Sanitary Sewer Improvement Refunding Bonds Series 2007 (Tyrone Township Sewer Bonds) were issued pursuant to Act 185 and 342, Michigan Public Acts of 1954, as amended. The Bonds were issued to refund a portion of the Tyrone Township Sewer Bonds - Series 2003. The bond proceeds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts' assets and liabilities for the defeased bonds are not included in the general purpose financial statements. At March 31, 2011, \$5,455,000 of bonds outstanding are considered defeased.

The bonds are primarily payable from collections of special assessments levied against the benefited properties in the District. The bonds are dated December 12, 2007 with interest payable June 30 and December 31, beginning on June 30, 2008. The Township's limited tax full faith and credit are pledged for the payment of the bonds if the special assessments are not adequate.

Act 359, Public Acts of State 1947, as amended, provides that net indebtedness of municipalities cannot exceed 10% of the assessed real and personal property in the Township. As of March 31, 2011, the Tyrone Township had not incurred any indebtedness which would be limited under Act 359. The Township's existing general long-term debt obligation contracts are specifically exempted from consideration in the 10% limit computation.

Notes to Financial Statements March 31, 2011

Note 8 - Pension

The Township has a qualified, contributory pension plan covering all elected officials established by Township Ordinance No. 31. The plan is administered by John Hancock. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The plan generally requires contributions of 10% of covered wages of participating employees. The employer contributes 75% and the employees contribute 25% of the required contribution. Benefits attributable to the employer contributions shall vest 100% upon the participants death, disability, normal retirement or upon the termination of the plan. Employee contributions are immediately 100% vested.

The Township's total payroll for the year ended March 31, 2011 was \$280,025. Contributions were based on the covered payroll (base salary) of \$63,260 during the plan period, which is April 1, 2010 through March 31, 2011. The Township and the covered employees made the required contributions of \$5,139 and \$1,956.

Note 9 - Risk Management and Contingent Liabilities

The Township is exposed to various risks of loss related to property loss, torts, errors and omission, and employee injuries. The Township has purchased commercial insurance for these claims. Settled claims for the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

Livingston County purchases delinquent tax rolls from the County' local units. In the event that those taxes become uncollectible, the County charges those amounts back to the local units. Therefore, the Township is exposed to potential refunds to Livingston County for the amount of uncollectible taxes and special assessment that were purchased by the County. The County has purchased a significant amount of delinquent special assessments levied by the Sewer Fund over the past three years. As of the day of this report, the County has not been able to collect on a significant portion of those delinquent amounts. The Township estimates \$1,004,022 will be repaid to the County and thus a payable has been recorded in the Sewer Fund at year end.

Notes to Financial Statements March 31, 2011

Note 10 - Upcoming Accounting Pronouncements

In March 2009, the GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated and unreserved will be replaced with five new classifications: nonspendable, restricted, committed, assigned and unassigned. The Township is currently evaluating the impact this standard will have on the financial statements when adopted. The Township will implement Statement No. 54 beginning with the fiscal year ended March 31, 2012.

Note to Required Supplemental Information Year Ended March 31, 2011

Budgetary Information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund and all Special Revenue Funds, except that the Township does not budget for capital assets acquired through purchase with federal grants. All annual appropriations lapse at fiscal year end, except for, approved contracts which are appropriated on a contract (grant) length basis..

The budget document presents information by fund, function, department, and line items. The legal level of budgetary control adopted by the governing body is the department level (i.e., the level at which expenditures may not legally exceed appropriations). The Supervisor is authorized to transfer budgeted amounts within departmental appropriation accounts. However, any revisions that alter the total expenditures of any department must be approved by the Township Board.

Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year.

Budgeted amounts are reported on the financial statements as originally adopted and as amended by the Township Board.

The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

- I. Prior to February I, the supervisor submits to the Township Board a proposed operating budget for the fiscal year commencing the following April I. The operating budget includes proposed expenditures and the means of financing them, for the General and Special Revenue Funds.
- 2. Public hearings are conducted at the Township Hall to obtain taxpayer comments.
- 3. Prior to April I, the budget is legally enacted on a departmental (activity) basis through passage of a resolution in accordance with Public Act 621 of the State of Michigan.

Excess of expenditures over appropriations in budgeted funds - The Township did not have significant expenditure budget variances.

Other Supplemental Information

Other Supplemental Information Nonmajor Governmental Funds Fund Descriptions

Liquor Law Enforcement - to account for funds received by the Township for liquor law enforcement.

Road Improvement - to account for funds transferred from the Township's General Fund for road improvement projects.

Building and Site - to account for funds transferred from the Township General Fund for various building and site improvements.

Improvement Revolving - to account for funds transferred from the Township's General Fund for various capital improvement projects.

Jayne Hill I & 2 Road Improvement - to account for the collection of special assessments levied on affected properties for road improvements.

Jayne Hill 4 Road Improvement - to account for the collection of special assessments levied on affected properties for road improvements.

Parkwood/Driftwood Maintenance - to account for the collection of special assessments levied on affected properties for road improvements.

Jayne Hill Lighting - to account for the collection of special assessments levied on affected properties for lighting improvements.

Walnut Drive Lighting - to account for the collection of special assessments levied on affected properties for lighting improvements.

Jayne Hill Waste Removal - to account for the collection of special assessments for waste disposal.

Technology - to account for purchases and maintenance of computer equipment.

Parkin Snow Removal – to account for the collection of special assessments levied on affected properties for snow removal.

Beautification Fund - To collect revenue and expenses associated with projects taken on by the Township to clean up or raze resident properties in order to make the Township more attractive. Funded by the property owner.

Parkin Lane Road Construction Maintenance - To account for the collection of special assessments levied on affected properties for road construction (fund currently is accumulating expenses associated with this project until special assessment is approved by affected parties).

Right of Way - To account for funds transferred from the Township's General Fund for right of way projects.
