## **PEG Coordinator Responsibilities**

I have listed the responsibilities from what I spend the most time doing.

### **Consulting**

For the most part, the schools, municipalities and board has relied on my opinion for equipment purchases. Majority of the time I spend is reviewing and researching requested equipment and making recommendations.

I think this has been the the biggest advantage of my position and has made a huge difference in the actual use of equipment purchased.

### **Coordination**

In most cases, I am answering emails, and pointing teachers in the right direction on questions they may have, or directing them to the correct person to get the answers they need.

On some occasions, I have also attended school events in person to help set up, troubleshoot, and coordinate filming.

Over the years this has become less and less as teachers and students have become more familiar with how to film these events.

Especially now with COVID, I do not expect to be attending events for the foreseeable future.

### **Equipment Troubleshooting and Repair**

In most instances the schools have been able to take care of software related troubleshooting and repairs. But often I have helped restore computers, fix hardware, take computers to Apple for repair under warranty, and troubleshoot and inform teachers on the more advanced equipment.

This has led to less equipment being set aside and not used.

### **Content Management**

When I first started, this area took up most of my time. But as we transitioned to a YouTube based content management, my time spent in the area has become less and less. The schools have been able to organize and upload their content without any coordination from me.

Letting the schools control their own content has increased viewership and outreach to the community online.

To summarize, I am still, and will handle all the responsibilities outlined in my original contract. I am just doing less of it now, and the amount of coordination needed to keep things organized are becoming less and less. Especially with covid and the my lack of personal availability moving forward, it would be reasonable for the board to decrease funding for my contract.

Moving forward, I believe most of my attention should be directed towards a final upgrade to the broadcast system at Fenton City Hall. I have had nothing but issues

with that system, and have started looking for a replacement that better fits the way we are doing things now.

I have enjoyed working with the schools and municipalities over the years and feel that I have built good relationships with everyone. I hope to continue to build them as long as I am needed.

Randen Syjut  
PEG Coordinator

Primary Road Pavement Preservation discussion.

# Livingston County Road Commission

3535 Grand Oaks Drive • Howell, Michigan 48843-8575

December 21, 2020

Dear Livingston County Township Managers and Supervisors,

The Livingston County Road Commission has budgeted approximately \$3,000,000 for Primary Road Pavement Preservation. We hope to maximize our program again by asking Townships to submit primary road projects that they would consider partnering on.

We have carried over our Pavement Preservation Program contract for another year with Rieth Riley Construction Company Inc. This enables us to keep the low bid prices from 2019 and allows us to start work immediately in the spring as soon as the weather breaks.

Attached is a costing guide for budgeting purposes only. We ask that you select projects for 2021 and 2022 that are of importance to your area. This will help us for future planning and budgeting.

Once we have all the projects identified we will evaluate projects and available dollars to maximize our 2021 pavement program.

2021 Projects

2022 Projects

Please submit your road candidates by February 28<sup>th</sup>.

Thank You,

Jodie Tedesco, P.E.  
County Highway Engineer
